PRO's Strategic Plan

- In 2019, consultation on a renewed strategic plan engaged almost 50 senior leaders from the sector and an additional 17 strategic partners.
- The PRO Board approved three new pillars that identify the strategic priorities that will advance the sector and enable the association to achieve a renewed vision and mission over the next four years:
Vision: Everyone experiences enhanced wellness through lifelong participation and equitable access to parks and recreation
Mission: Lead, connect and inspire Ontario's parks and recreation sector
Strategic Pillars:
 - i. Positioning Parks and Recreation: Be the catalyst for coordinated advocacy in the sector.
 - ii. Knowledge Mobilization: Advance innovation through knowledge mobilization to strengthen policy and practice.
 - iii. Quality Assurance: Elevate the parks and recreation sector through quality assurance.
- As this new Strategic Plan was created in a non-COVID world, PRO recognized the need to adjust our plans to best serve the sector and PRO.
- PRO convened a representative group of senior leaders to inform a streamlined and focused response to COVID-19 in a short-term plan that focuses PRO's resources on:
 - **Positioning parks and recreation as essential for recovery** – providing a unified voice for the sector with government and policy development leadership
 - **Member support and relationships** – providing opportunities for senior leaders to continue to network, and focusing on the delivery of core membership services like Job Mart
 - **Education, training and quality assurance** – providing more opportunities for virtual learning that will support sector recovery. This will include bringing additional HIGH FIVE products online.

11. Resolutions

Jan Wilson reported that one PRO Member Resolution was received. She introduced Howie Dayton, City of Toronto and PRO Past President, to introduce the motion:

- Considerable effort by management and staff has resulted in reduced operating and fixed costs while optimizing value for members. Cost containment will continue over the next operating year.
- A detailed cash flow budget has been developed and the success of the organization is dependent upon maintaining membership fees, with training sales returning slowly for HIGH FIVE when the sector and the economy starts its process of recovery. Education and Training will be revenue neutral and will be offered as a member benefit.
- Earned revenue projections continue to be significantly reduced from pre-pandemic levels resulting in a planned operating deficit for 2021 of \$134,000. This will reduce current reserve funds to \$130,000 by the end of 2021.

PRO Member Resolution #1

MOVED BY: Howie Dayton, City of Toronto

SECONDED BY: Brian Connors, City of Woodstock

WHEREAS:

Whereas PRO was established as a professional association in 1995 to address a sector need that brought together organizations into one to provide a coordinated and unified voice to strengthen parks and recreation in Ontario;
And whereas PRO is acknowledging its 25th year in operation supporting the parks and recreation sector in Ontario;
And whereas PRO has always been seen as a leader in Ontario and across Canada providing reliable, relevant and forward-thinking support to its membership as well as allied partners;
And whereas PRO is solely reliant on self-generated or earned revenue streams provided primarily through membership fees and training revenues;
And whereas the essential role that parks and recreation provide at the local level has been accentuated, demanded and supported in communities across Ontario;
And whereas there has never been a more important time to have a strong professional association to support the sector;
And whereas previous sector leaders and Boards of Directors took the responsible action to continue to ensure that PRO maintain a reserve that have contributed to PRO's sustainability over the 7 months of COVID-19 related impacts;
And whereas PRO has reduced expenditures wherever possible, adopted a reduced work week for staff and has taken all actions possible to minimize current costs and future expenditures, including management taking a voluntary reduction in employment earnings;
And whereas PRO has also pursued all financial support available to not-for-profit organizations;
And whereas there is insufficient Government assistance to close the gap in revenues and expenses resulting in a tenuous financial position for the association;
And whereas there is no greater time to have a unified voice for the sector to assist with our own recovery efforts, sharing of policies, practices and networks
And whereas the ability for PRO to continue to meet the associations strategic priorities is directly related to available finances required to deliver relevant programs, services and supports;
And whereas PRO recognizes that its membership continues to face financial challenges due to the COVID-19 pandemic;
And whereas the focus of the resolution section within the Annual General Meeting has traditionally been to support the sector through the passing of specific resolutions that support the advancement of the parks and recreation sector in Ontario;
And whereas the current environment in this 25th year of operation dictates that PRO must now seek sector support;
And whereas this resolution is being tabled to confirm that we are a unified and a strong professional association for parks and recreation in Ontario;

THEREFORE, BE IT RESOLVED THAT:

the Parks and Recreation Ontario membership demonstrate its full and unwavering support to PRO by maintaining a commitment, wherever possible, to pay all or at a minimum, a portion of, its membership fees effective immediately; to access relevant PRO education, training and other services and to participate actively in PRO's initiatives to position the importance of parks and recreation and advocate for recovery for our sector.

The Motion was Carried.

Jan thanked Howie for bringing this motion forward.
